Emdeon ePayment For Medical Providers

Replaces paper-based claims payments with electronic funds transfer (EFT) payments that are directly deposited into your bank account

The **1199SEIU Benefit Funds** have selected Emdeon as their electronic payment and remittance reporting provider. There is no cost to you to use Emdeon ePayment and enrollment is free!

Get paid faster with EFT payments

With Emdeon ePayment, you can accelerate your reimbursement cycle since you don't have to wait for your checks to arrive in the mail. Plus, it eliminates manual processes like sorting and opening mail, reconciling paper-based claims payments, creating deposit tickets and making trips to the bank.

Simplify Reconciliation

Once enrolled in ePayment, you will continue to receive paper Explanation of Payment (EOP) statements for up to 45 days after enrollment, after which the 1199SEIU Benefit Funds will generate a downloadable HIPAA-formatted 835 ERA file through your respective clearinghouse. You can also use Emdeon Payment Manager, an online application available for Emdeon ePayment users, to view and print EOP images.*
